

Diarmuid Hession

Churchtown, Ballinea, Mullingar, Co. Westmeath

✉ code@diarmuid.dev |  [Portfolio](#) |  [LinkedIn](#) |  [GitHub](#)

TECHNICAL SKILLS

- **Languages** - C#, .NET, Python, Java, JavaScript, TypeScript, C++, SQL
- **Web & Databases** - HTML, CSS, React, Angular, Node.js, FastAPI, Bootstrap, PostgreSQL, MongoDB, Firebase, Netlify
- **Cloud & DevOps** - AWS (Amplify, Lex, Bedrock, Lambda, S3, CloudWatch, DynamoDB, EC2, Route 53, IAM), Azure, Docker / Docker Compose, CI/CD with GitHub Actions, Cloudflare
- **AI & Computer Vision** - PyTorch, TensorFlow, Ultralytics YOLO, OpenCV
- **Tools & Other** - Git, Linux, Visual Studio, Unit Testing, VIAME (marine video analytics), FFmpeg, Tesseract OCR, CNN / MNIST, ERP systems, Twilio, XAML

EXPERIENCES

Software Engineer | Department of Social Protection (2026)

- Joined as a Software Engineer Intern and was retained as a Software Engineer.
- Served as a Developer, System Tester and Business Analyst across the SDLC.
- Dealt with and resolved 20+ tickets across features, defect fixes and system testing.
- Built features in C#, SQL and Angular on a Model-View-Controller architecture, working in Azure DevOps with Git branching and peer-reviewed pull requests.
- Attended and hosted daily stand-up meetings, delivering to Agile methodologies.

I.T. Administrator Intern | QTP (2025)

- Automated 3+ repetitive tasks with Python scripts, saving 10+ hours/week.
- Contributed to daily Agile sprints, completing 12+ tickets per sprint.
- Assisted in rollout of 2FA system, securing 1,000+ customer accounts.
- Reduced IT ticket resolution time to under 24 hours.

Volunteer Coding Mentor | CoderDojo Mullingar (2024 - 2025)

- Taught coding basics to groups of 10–15 students, adapting to diverse learning styles.
- Collaborated with 5+ mentors to design engaging sessions, increasing retention.

Counter, Poll Clerk & Tallier | Department of Justice (2024)

- Counted and tallied votes as part of the count team, and assisted voters as Poll Clerk in line with electoral procedures.

Crew Member | McDonald's Mullingar (2022 - 2025)

- Delivered efficient service in a high-pressure environment, serving 300+ customers daily.

PROJECTS

AABCI – AI Automated Ballot Counter Ireland | Python, PyTorch, YOLO, TensorFlow, OpenCV, AWS, Docker, PostgreSQL

- Built in collaboration with an electoral commission consultant. Verifies a ballot's official stamp with a YOLO model, reads the handwritten preferences with a TensorFlow network and flags anything uncertain for a person, keeping a full audit trail.

[Aithne Fish Detection](#) | Python, VIAME, FastAPI, PostgreSQL, React, TypeScript, Docker

- An AI system that detects, tracks, counts and identifies fish in underwater video and on 17 live ocean cameras, with a human review queue and CSV exports.

[AI Portfolio Chat Bot](#) | Open AI, React, JSON

- An interactive portfolio chat bot designed to provide information about projects, skills, and background, offering visitors an engaging way to explore the portfolio.

[Game Platform](#) | C#, Classes, .Net, Unit testing, IGDB API, LINQ, Local SQL Database, WPF

- Developed a platform supporting login, browsing, and purchases for 428,000+ games from the IGDB API.

OTHER PROJECTS

- [Personal Portfolio](#) | React, Node, S3, Netlify, Google SEO, Bootstrap, Twilio
- [Weather App](#) | React, CSS, JavaScript, Bootstrap, OpenWeather API, local storage
- [Angular Game Platform](#) | Angular, TypeScript, Swiper.js, REST APIs
- [WearMore](#) | JavaScript, Bootstrap, authentication, GitHub Pages

EDUCATION

BSc (Hons) Computing (Software) - Level 8 | ATU Sligo Year 4 Student

GPA: First Class Honours (1:1)

Year 3

Course Title	Final Grade
Open Stack Development	77
Database Programming	76
Mobile Application Development	76
Professional Development	75
Project 300	74
Web Programming 2	72

SOFT SKILLS

- **Problem Solving** – Quickly adapted to new tools and frameworks, troubleshooting integration issues to keep projects on track.
- **Teamwork** – Partnered with a UX designer on website updates that refined navigation and user flow.
- **Communication** – Documented key points from internal and external meetings in concise reports, ensuring team members had clear references for follow-up actions.
- **Adaptability** – Balanced academic work with part-time shifts at McDonald's and volunteer mentoring at CoderDojo, thriving in high-pressure environments.
